

“To provide a system that creates security, social interaction, freedom, sustainable living, wellbeing, happiness, easy living. A way to work, rest, provide, raise a family and play; to create a community.”

A Community or a System?

Create a community that promotes freedom and security with itself; includes commercial, residential and recreational areas, but still is open for non residences; that is environmentally sustainable and promotes better transportation methods; that is open for all cultures and classes.

social cultural commerce
residential recreational transportation
resources
environment share systems affordability
lifestyle
